

What Happens When You Weave Your Intuition with Your Dreams?

You discover your personal tapestry...one that reveals how to connect with your creative and spiritual life.

Intuitive yet practical tools such as dreams, rituals, journals, and creative play are the threads that reconnect us with our inner wisdom and power

Choose from these topical threads:

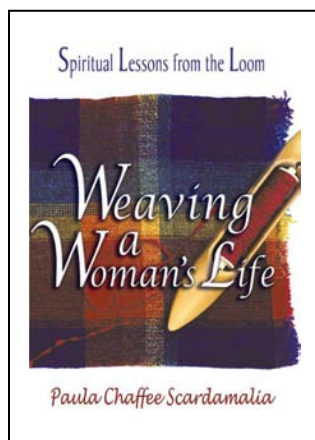

WEAVING A LIFE: LESSONS FROM THE LOOM

Life is a tapestry that we weave each day. The warp threads (vertical) are those threads that link us to our past, our family, and those characteristics and qualities that make us who we are. The weft threads (horizontal) are woven into the fabric of our lives day by day - each thread a choice made or action taken that can reveal more of who we are and enhance the beauty of our souls and lives.

In this workshop based on her book, Paula shows how to:

- > identify and acknowledge the value of the past and to recognize how personal choices determine the beauty of the tapestry
- > use three ways to deal with mistakes in our life fabric
- > recognize that an ideal life is about more than balance – it is about integration

People say things happen for a reason. I never saw the value—and power—of my past until I took Paula’s workshop. ~ Zita Christian, author.

“This beautiful book creates an inspiring and insightful glimpse into how we are all weavers of our own lives...”

WALKING THE CREATIVE LABYRINTH: Getting Past Fear to Productivity

Every creative act can be a frightening journey into the unknown. Whether you are a seasoned traveler or an inexperienced voyager, each journey is like stepping into a labyrinth where the path is never straight, where distractions, monsters, and illusions seek to waylay and discourage you. Though the end is much desired, it is not always in clear view, and can often seem unattainable.

As someone who has walked the path, Paula shows:

- > techniques for preparing for a creative journey, dealing with challenges of the journey, and returning with inspiration and direction
- > practical and imaginative techniques for creating the ideal work space, both within and without
 - > ways to use myth, metaphor and dreams for guidance, and reflection

I was unable to move forward with a particular part of my book because the information I needed to write about was painful and I was afraid to tackle it. She shored me up with her wisdom and compassion, helping me to honor the difficulty, and the process of moving through it. It proved to be a major breakthrough for me. ~Sheila Weinstein, writer

THE TOWER IN THE WOODS: Dreaming Your Creativity Awake

We all wish we had that ideal space to escape to for creation, meditation or simple renewal. Unfortunately, the realities of family, space, and budget offer challenges. But the dreaming, creative spirit is not limited by those realities. Instead, there is a creative sanctuary waiting for all us in the land of dreams.

Paula shows:

- > techniques of conscious dream work to discover your own special creative sanctuary and unique library
- > ways to access guides, and mentors for help and inspiration
- > how to remember and record your dreams to create your own unique dream dictionary for symbols, landscapes, character development and other creative and spiritual uses

It starts as a small swirl of astonishment when she guides you through the world of spirit guides and power animals, growing into amazement as she peels back your dreams...And just when you think it's all over, Paula murmurs those magical words, "if your dream were my dream..." And that is when she blows you away. ~Jennifer Ortiz, writer, publisher relations manager
